Education

University of Texas at Arlington - Bachelor of Science in Computer Science (Sophomore)
Expected Graduation: May 2024
Current GPA: 4.0

Related Courseworks:
Object-Oriented Programming   Algorithm and Data Structures   Linear Algebra   Discrete Structures
Assembly and Computer Organization

Projects

Chess Game (C)   **Winter 2021**
-Implemented a chess board that prints to the console, updates the board after each turn, and lets only valid piece movement execute
-Game allows for two player mode

Animal Shelter Management Software (Java)   **Spring 2022**
-Implemented Java Swing to create a Graphical User Interface to let the user easily interact with the software
-Utilizes concepts of Object-Oriented Programming to manage data through encapsulation and use of objects
-Allows user to add animals, clients, and keeps track of the adopted animal with their respective client along with a variety of other features
-Used the agile process to implement multiple features throughout each sprints

Technical Skills

Microsoft Office: Word, Powerpoint, Excel
Technical Framework: OOP, Agile, Git, Linux/Unix, React/React-Native
Programming Software: Java, C, C++, Python, Matlab, Javascript
Bilingual proficiency in Korean and English
